

Bhavyansh Jain

Frontend Engineer | React & UI Architecture | Backend Integration

+91 70738 22233 | bhavyansh.bj@gmail.com | linkedin.com/in/bhavyansh19 | github.com/Bhavyansh19

EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science and Engineering

Oct 2022 – Jun 2026

- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Web Development

TECHNICAL SKILLS

- **Frontend (Primary):** React, Next.js, JavaScript, TypeScript, Tailwind CSS, Responsive UI Design
- **Backend (Applied & Learning):** Node.js, Express.js, REST API Design, PostgreSQL, MongoDB
- **ML & Data (Foundational Exposure):** Python, scikit-learn, Pandas, NumPy, OpenCV
- **Tools:** Git, GitHub, Docker, CI/CD Basics, Component-Based Architecture

PROJECTS

Elysium — React, Node.js, PostgreSQL

Aug 2023 – Oct 2023

- Designed and built a responsive frontend architecture using React, developing 20 reusable and modular UI components.
- Integrated REST APIs to implement reservation and booking workflows with seamless frontend-backend communication.
- Implemented automated email confirmations, improving booking reliability and reducing user-facing errors.

AI Photo Colorizer — Python, OpenCV, Deep Learning

Jun 2024 – Jul 2024

- Developed an AI-based image colorization tool that converts black-and-white images into realistic color images using a pre-trained deep learning model.
- Implemented LAB color space-based preprocessing and post-processing to improve color accuracy and visual quality.
- Built an end-to-end computer vision pipeline using OpenCV's DNN module, processing images within 2-3 seconds.

Health-AI — Flask, scikit-learn

Jan 2023 – Mar 2023

- Built an SVM-based symptom prediction prototype using 40 structured input features.
- Implemented data preprocessing pipelines using Pandas to improve model input reliability.
- Integrated model outputs with a simple web interface for structured recommendation display.

EXPERIENCE

Software Development Intern

Jun 2025 – Sep 2025

HaleForm Technology Solutions Pvt. Ltd.

Hybrid

- Owned development and maintenance of frontend UI components using React, Next.js, and Tailwind for internal dashboards.
- Integrated REST APIs into frontend workflows, improving data accuracy and reducing manual handling.
- Improved CI/CD checks and deployment scripts, increasing release reliability across teams.
- Automated log parsing and data processing using Python, reducing repetitive tasks by 20%.

CERTIFICATIONS

- Supervised Machine Learning — Regression and Classification (Coursera, 2025)
- Advanced Learning Algorithm (Coursera, 2025)

LEADERSHIP AND ACTIVITIES

Creative Co-Lead

Oct 2023 – Mar 2024

Cisco Community, VIT Bhopal

- Led creative planning and execution for events involving 40+ members.
- Coordinated timelines and design deliverables to improve event visibility and engagement.
