EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science and Engineering

CGPA - 7.6

Oct 2022 - June 2026

TECHNICAL SKILLS

- **Programming & Frameworks:** Python, Java, JavaScript, TypeScript, React, Next.js, Tailwind
- **Libraries & Tools:** NumPy, Pandas, Matplotlib, Git, GitHub, Docker, Microsoft Office Suite
- **Databases & Concepts:** PostgreSQL, MongoDB, Data Structures, Algorithms, Object-Oriented Programming, System Design

PROJECTS

Elysium — React.js, Express.js, PostgreSQL, Node.js

Aug 2023 - Oct 2023

- Developed a full-stack restaurant website with responsive design and intuitive user interface.
- Built a reservation management system with table availability tracking and booking confirmation features.
- Integrated EmailJS for automated email notifications to confirm bookings and send reminders to customers.

Health-AI — Flask, scikit-learn, HTML/CSS, JavaScript, pandas

Jan 2023 – Mar 2023

- Developed a symptom-based disease prediction web app using Flask and a trained SVM model with ~46% accuracy.
- Integrated ML outputs with dynamic frontend templates to display diagnosis, precautions, medications, workouts, and diet plans.
- Utilized pandas for structured healthcare data handling and optimized form-based input parsing for robust predictions.

Signature Pad — HTML5, CSS, JavaScript

May 2023 - June 2023

- Designed a signature capture tool with PNG, JPG, and PDF export, utilized by 100+ users.
- Enhanced rendering speed by 15%, improving app responsiveness for touchscreen interactions.

EXPERIENCE

Software Engineering Virtual Experience

J.P. Morgan — Forage

Virtual

Sep 2024

- Configured local development environment and resolved broken repository files to restore web application functionality.
- Implemented JPMorgan Chase's Perspective library to create live data visualization graphs for financial trading applications.
- Developed interactive dashboards displaying real-time market data feeds with clear visual indicators for trader analysis.

CERTIFICATIONS

- Supervised Machine Learning: Regression and Classification, Coursera — September 2025
- The Bits and Bytes of Computer Networking, Coursera - December 2023

LEADERSHIP AND ACTIVITIES

• **Creative Co-Lead — Cisco Community VITB**

Oct 2023 – Mar 2024

- Spearheaded creative initiatives, engaging 40+ members.
- Developed branding materials, increasing community reach and engagement.
